
IC-RDKL

Decoration stations

With the new IML-T® decoration unit IC-RDKL, ILLIG now also offers the brilliant decoration of lids in thermoforming. This allows for matching high-quality packaging made of IML-T® cups and IML-T® lids.

ILLIG has expanded the decoration technology, in-mold labeling in thermoforming, IML-T®, with the new decoration unit IC-RDKL. This enables the economical production of brilliantly decorated lids. The IC-RDKL can be integrated into existing IC-RDK 80 production systems. Manufacturing costs of decorated thermoformed lids are 20 percent lower than injection-molded lids since the weight is substantially lower, the output is higher and machine investment is lower. With IML-T® systems the operator benefits from high flexibility by fast format and tool changes with low tool costs at the same time.

BENEFITS

- PACTIVITY®
- CLEANTIVITY®
- LABEL ACCURACY +/- 0,3MM

TECHNICAL DATA

IC-RDKL

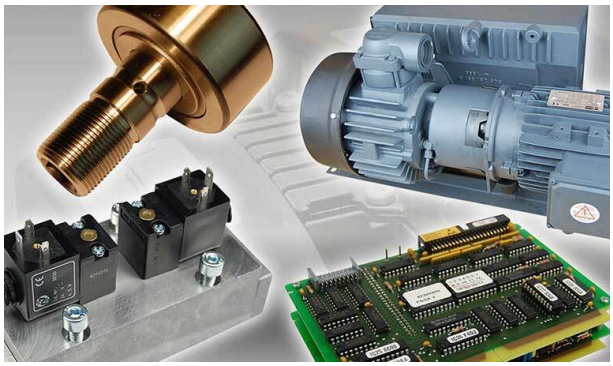
Decorating station

756 mm X 565 mm	max. 120 mm
Forming area	Formed part height
max. 24 cpm	1 - 35
Cycle speed	Number of cavities

SERVICES

SPARE PARTS

With machine spare parts we offer our customers worldwide optimal support. Safe, reliable, superior parts for guaranteed quality.



SPARE PARTS

With tool spare parts we offer our customers worldwide optimal support. Safe, reliable, superior parts for guaranteed quality.

MONITORING

Our Monitoring products provide you a competitive advantage. Data analysis via our sercure remote access service, enables you reduced costs and time for trouble shooting and increase the availability of your ILLIG system.

SERVICES

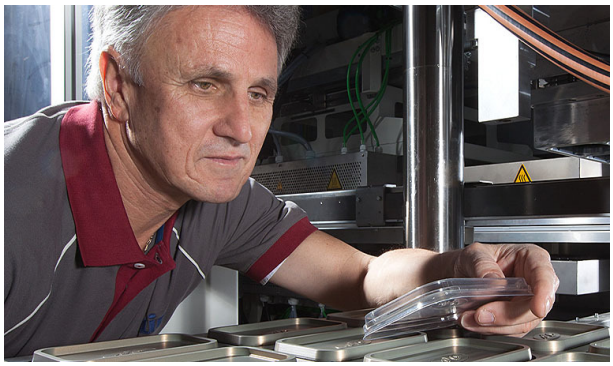
PROCESS IMPROVEMENT

Our experts will help you with production or optimize the entire thermoform process to achieve more performance, better product quality and higher machine availability for your ILLIG system.

SERVICE AGREEMENTS

With service agreements we provide you support for your ILLIG system over the entire lifecycle.

TECHNICAL SERVICES



Technical Services offers our customers worldwide technical support.

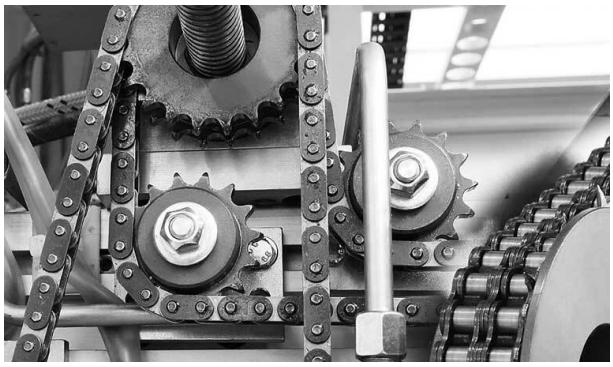
SERVICES

TECHNICAL TRAINING

Master complexity - increase return. In accordance to this motto we educate the delegates to advanced line specialists.

UPGRADES

With upgrades for our machines, our customers can implement new applications and functional enhancements and thus realize new customer requirements, improve profitability and increase their added value in a targeted manner.



ACCESSORIES

ILLIG accessories with ILLIG Quality. High-quality materials with a long lifespan, with targeted use, are a guarantee for optimal work results.
