

RDM 37/10

Automatic roll-fed thermoformer for forming/punching tools

Produce cups, trays and other similar products with the ILLIG automatic pressure forming machine RDM 37/10. The thermoforming machine with forming and punching technology operates reliably and fully automated with precision mechanical drives, producing a high output of high-quality products.

The ILLIG RDM 37/10 automatic pressure forming machine with a forming area of 475 mm x 250 mm delivers accurately reproducible packaging parts such as cups, containers and other similar parts from a material roll. The advantages of this proven machine are its high output performance at minimal energy consumption and low-maintenance operation.

BENEFITS

TECHNICAL DATA

SERVICES

SPARE PARTS

With machine spare parts we offer our customers worldwide optimal support. Safe, reliable, superior parts for guaranteed quality.

SPARE PARTS

With tool spare parts we offer our customers worldwide optimal support. Safe, reliable, superior parts for guaranteed quality.

MONITORING

Our Monitoring products provide you a competitive advantage. Data analysis via our secure remote access service, enables you reduced costs and time for trouble shooting and increase the availability of your ILLIG system.

SERVICES

PROCESS IMPROVEMENT

Our experts will help you with production or optimize the entire thermoform process to achieve more performance, better product quality and higher machine availability for your ILLIG system.

SERVICE AGREEMENTS

With service agreements we provide you support for your ILLIG system over the entire lifecycle.

TECHNICAL SERVICES

Technical Services offers our customers worldwide technical support.

SERVICES

TECHNICAL TRAINING

Master complexity - increase return. In accordance to this motto we educate the delegates to advanced line specialists.

ACCESSORIES

ILLIG accessories with ILLIG Quality. High-quality materials with a long lifespan, with targeted use, are a guarantee for optimal work results.
