HSU 35b

Blister packaging system

The Hot Seal Unit HSU 35b is a flexible blister packaging system for almost unlimited possibilities at the point of sale. The HSU 35b is suitable for all types of blisters in the non-food and medical technology sectors. The system can be designed with 3, 6, 8, 10 or 12 transport pallets for any application. The appropriate sealing unit can be retrofitted at any time.

The Hot Seal Unit HSU 35b is a blister packaging system for up to 12 transport pallets that can be configured to your needs. Individual, flexible, efficient. Compact and with a sealing force of up to 30 kN, the HSU 35b processes all blister types with maximum blister heights of up to 64 mm from the non-food and medical technology sectors. ILLIG know-how and professional engineering services enable you to produce safe, perfectly executed and sustainable fully recyclable blister packs made of plastic-cardboard combinations or 100% cardboard (mono-material blisters), if required also with sealed dust and side flaps. An advantage is a possibility to adapt the format parts of the HSP series, which are often available on the market. The appropriate sealing unit can also be retrofitted at any time.

BENEFITS

- CLEANTIVITY®
- QUICK-CHANGE-TOOLING
- LOW TOOL COSTS
- STAINLESS STEEL VERSION (OPTIONAL)
