

SB 74e

Skin and blister machines

The ILLIG skin and blister packaging system is capable of processing both plastic film as well as pre-cut plastic sheets. By closing the blow box, the material film is pre-stretched using a vacuum. The SB machine ensures a high capacity at a constant high quality, and it is very flexible thanks to easy-to-change format parts.

The SB 74e has a maximum forming area of 505 x 775 mm and is capable of processing both material film and pre-cut material sheets. The skin packaging machine produces cost-effective packaging without further investments in tools. The toolless adjustment of the longitudinal and lateral cutters is another benefit of the SB 74e. A card that can be printed on both sides serves as the basis for the blister packaging.

Loading the product can be done manually or semi-automatically. The transparency of the skin film in combination with a highly transparent sealing layer brings out the best of the printed card for a high-quality product presentation at the point of sale. The excellent fastening of the product to the cardboard back offers ideal product protection during transport. And the product does not have to be opened to ensure that its contents are present.

BENEFITS

TECHNICAL DATA

SERVICES

SPARE PARTS

With machine spare parts we offer our customers worldwide optimal support. Safe, reliable, superior parts for guaranteed quality.

SPARE PARTS

With tool spare parts we offer our customers worldwide optimal support. Safe, reliable, superior parts for guaranteed quality.

PROCESS IMPROVEMENT

Our experts will help you with production or optimize the entire thermoform process to achieve more performance, better product quality and higher machine availability for your ILLIG system.

SERVICES

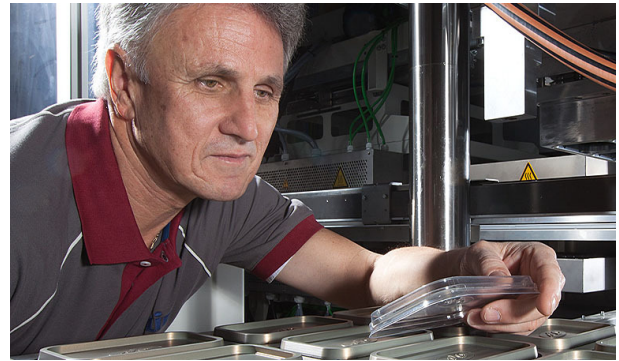

SERVICE AGREEMENTS

With service agreements we provide you support for your ILLIG system over the entire lifecycle.

TECHNICAL SERVICES

Technical Services offers our customers worldwide technical support.

TECHNICAL TRAINING

Master complexity - increase return. In accordance to this motto we educate the delegates to advanced line specialists.

SERVICES

ACCESSORIES

ILLIG accessories with ILLIG Quality. High-quality materials with a long lifespan, with targeted use, are a guarantee for optimal work results.
